CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience in full-stack web development using Python, Flask, MySQL, JavaScript, and React.js. Developed AI-integrated web applications including a Smart Complaint Management System with chatbot support. Interested in backend development, REST APIs, and scalable web applications.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, React.js
- **Backend Technologies:** Flask
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, XAMPP
- **Concepts:** REST APIs, CRUD Operations, Authentication, Responsive Web Design

PROJECTS

1. AI-Based Smart Complaint Management System

Tech Stack: Python, Flask, MySQL, HTML, CSS, JavaScript, Bootstrap, OpenAI Integration

- Developed a full-stack AI-powered complaint management system using Flask and MySQL supporting complaint registration, tracking, and admin management functionalities.
- Built secure login authentication for students and admin users.
- Integrated AI chatbot support using OpenAI API.
- Designed a fully responsive frontend using Bootstrap ensuring mobile and desktop compatibility.
- Implemented complaint status tracking and admin action panel.
- Managed complaint data storage with MySQL database.

2. Quiz Competition Web Application

Tech Stack: HTML, CSS, JavaScript, Python

- Developed a web-based quiz competition platform for college events
- Implemented multiple quiz rounds with timer functionality
- Added admin panel for question management and score tracking
- Included dynamic question selection system
- Developed collaboratively with a teammate

INTERNSHIP

Web Development & App Development Intern

Perennial Innovative Solutions, Hosur | Duration: 15 Days | Full-Time

- Developed responsive UI components using HTML, CSS, and JavaScript during internship training.

- Collaborated with development team to debug frontend issues and improve user interface responsiveness.
- Assisted in testing and improving frontend functionality for better user experience.
- Learned software development workflow and deployment basics.

EDUCATIONAL QUALIFICATION

Bachelor of Science in Computer Science

SVM College, Uthangarai | Year of Completion: 2026 | Percentage: 80%

Higher Secondary Education (12th)

GHSS, Kasinayakanpatti | Percentage: 77.77%

SSLC (10th)

V.R.V Matric School, Perampattu

CERTIFICATES

- Python Essentials – Cisco
- Responsive Web Design – freeCodeCamp
- SQL Basics – HackerRank

ACHIEVEMENTS

- Developed 2 full-stack academic web applications using Flask and MySQL
- Maintained project source code using Git and GitHub for version control and collaboration.
- Participated in technical and coding events at college level

SOFT SKILLS

- Problem Solving
- Time Management
- Team Collaboration

LANGUAGES KNOWN

- Tamil
- English
